

DevHire.

Eliminating hiring managers' efficiency barriers by providing a bespoke platform connecting them directly to leading, global developer talent.

DevHire's algorithm leverages advanced filtering and the Elo rating system to principally present hiring managers with top-tier professionals.

We help hiring managers save time and money and accelerate towards faster growth in high-quality technology development.

Get hired or hire talents made easy

I'M A HIRING MANAGER

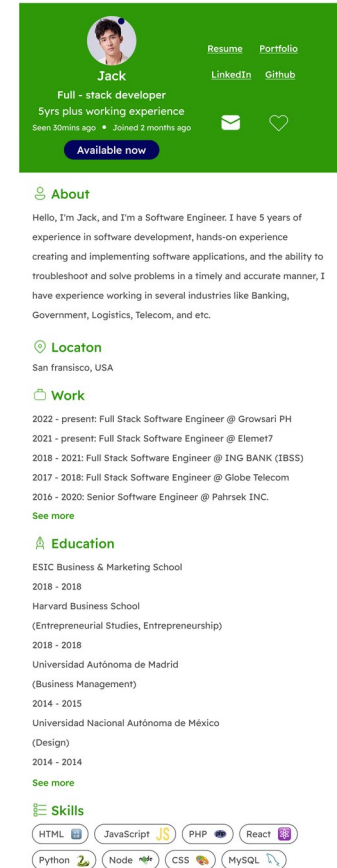

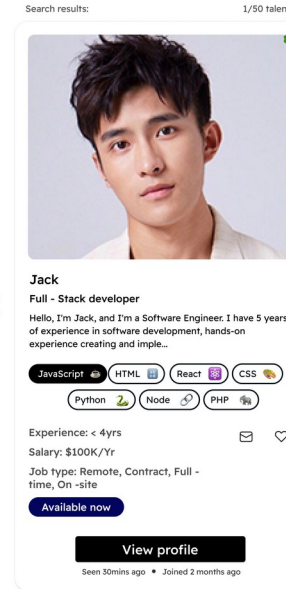

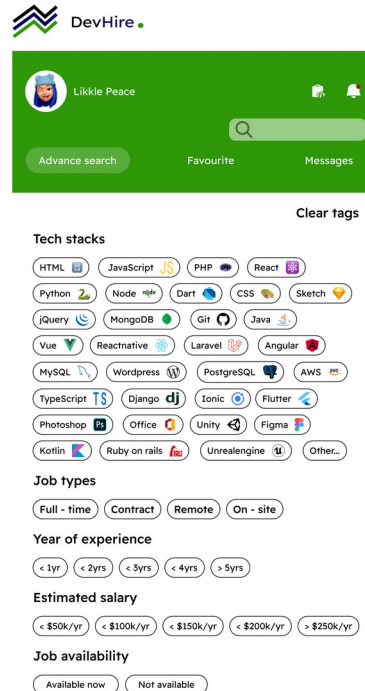

I'M A DEVELOPER

Advanced filtering for providing hiring managers with developers based on their immediate requirements

Results are displayed from highest rated developer to lowest rated developer. Therefore hiring managers would spend less time on the app searching.

Click view profile to see more details about a developer and their CV / Resume
